Stunning Village Builder home with high-end finishes throughout. The entry sets the tone with double front doors, soaring ceilings, detailed trim work, and a grand staircase. The home features dark hardwood floors, custom millwork, and upgraded lighting. The kitchen offers an oversized granite island, white cabinetry, oak accents, and a full butler's coffee and beverage station with a wine fridge. The downstairs primary suite includes double doors, a sitting area, and a spa-style bath with a claw foot tub and a custom double vanity. The layout is designed for extended family. The entire upstairs has been reconfigured into a full private suite with its own seating area, bedroom, and primary bath. It works well as an in-law suite or guest retreat. The home also includes double doors leading to the backyard, large windows, and a flagstone patio that creates a great outdoor gathering space.
